

Please reject NAB Petition 04-160.

XM Radio has changed my life. Seriously, without it, I'd suffer from severe road rage. Washington DC is sorely lacking in the radio department-and for those of us that are faced with a daily commute, options are the key to a healthy mindset. With over 100 stations to choose from, I've been an XM subscriber for a year now, and I've never looked back. The addition of traffic and weather has been a major boon for me as well-now I'm not forced to wait to hear traffic-since it updates constantly, I'm alerted to accidents & other backups, and can make changes to my commuting route in time to avoid sitting in gridlock for hours.

I'm really not sure what I'd do without XM at this point. I didn't realize how important having a variety of stations was to me until I tried it. Thank you XM for preventing road rage. And please, FCC, REJECT 04-160. Do it for the commuters!

Sincerely.

Allyson Alt.
